📍 Tunis, Tunisia

Third-year student at Enicarthage, seeking an end-of-studies internship. Motivated and enthusiastic, I possess a strong ability to adapt and a quick understanding of workflow, making me an ideal candidate to meet your expectations.

Professional Experience

Teamwill, Summer Internship

Jun 2024 – Aug 2024 | Lac 1, Tunis, Tunisia

Development of a Debt Collection Application

- Developed a web application for managing invoice collection using **Angular** for the frontend and **Spring Boot** with **MySQL** for the backend.
- Implemented client management, invoices, and payments, along with customized follow-up strategies for each client.

Codix, Summer Internship

Jun 2023 – Aug 2023

Centre urbain nord, Tunis, Tunisia

Development of a User Management Application

- Developed a web application for managing users, using **Angular** for the frontend, **Spring Boot** for the backend, and **PostgreSQL** for the database.
- Observation of employees' work methods to efficiently manage numerous tasks within short deadlines, providing immersion in professional life and time management.

Projects

MedicalAssistance

- Developed a platform to assist caregivers in remotely monitoring elderly individuals, reminding them to take their medications on time and regularly checking their health status. Technologies used include **Next.js**, **Node.js**, and **MongoDB**.

Debt Collection Application

- Developed an application to manage client debts and payments with customized follow-up strategies for each client, using **Angular**, **Spring Boot**, and **MySQL**.

Absence Management Application

- Developed an application to manage student absences, notifying the administration and sending email alerts to students when their absences exceed a threshold, using **Angular**, **Spring Boot**, and **MySQL**.
